## International Course on Geotechnical and Structural Monitoring

Course Director: **John Dunnicliff**, Consulting Engineer

Organizer: **Paolo Mazzanti**, NHAZCA S.r.l.

The purpose of the course is to guide participants on how to plan and execute effective geotechnical and structural monitoring programmes. Seventeen **leading experts of the geotechnical and structural monitoring community** from Italy, England, Australia, France, Germany, Norway, Switzerland, USA, Hong Kong and The Netherlands will lecture on the following topics:

- Basic concepts of monitoring and planning
- Contact Monitoring methods
- Remote Monitoring methods
- Management, analysis and interpretation of data

The course is intended for project managers and other decision-makers who are concerned with **management of RISK** during construction, geotechnical and structural engineers, end users, consultants, service providers, manufacturers and researchers working in following sectors:

- Large infrastructures
- Transportation
- Mining
- Oil and gas
- Land and water management
- Sensor and equipment manufacturers
